

BEF-Action "One-Sleeping-Bag for one life"

Dear Friends and benefactors,
Namaste!

Timely for the onset of the cold winter season we successfully concluded our action "One-Sleeping-Bag-for-one-life".

The good quality sleeping-bags are made in Nepal and this by underprivileged women and as soon after delivery we started with the distribution to the neediest of our target-groups.

Until today 70 sleeping bags have been distributed and 30 sleeping bags are kept in storage for upcoming emergency cases.

It goes without words that our beneficiaries are overjoyed and it was a tremendous relief for all of them since this will give them adequate protection from the freezing cold at night.

Let us all rejoice in the fact that thanks to our mutual efforts these precious beings are warm and safe and it goes without saying that their gratitude is reaching out to the kind and caring people who made this possible for them.

Thank you all!

With warm regards

Surendra, Raymond & the TEAM
